A SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS

➤ ABOUT US

OUR MISSION

At Government Contracting Services (GCS), our mission is to provide our customers with the best contracting experience possible, winning their trust, respect, and repeat business. We pledge to exceed expectations every time, adding value for our clients through foresight, integrity, quality performance, and the highest level of professionalism.

WHAT WE DO

GCS is a Service-Disabled, Veteran-Owned, Small Business (SDVOSB) is a progressive and growing Electronic Security System services provider based out of Tacoma, WA. Our strong background in Electronic Security System integration, installation, maintenance, and repair of Intrusion Detection Systems, Access Control, CCTV and Video Management Systems, allows us to provide best-value solutions in a very dynamic industry. Our business growth has been earned by outstanding performance and measured by high customer satisfaction. We pride ourselves on the quality of our work while consistently providing cost effective results and exceptional customer service.

PAST PERFORMANCE HIGHLIGHTS

FAA FSRM PROGRAM

GCS is a preferred contractor for the Federal Aviation Administration (FAA) Facility Security Risk Management (FSRM) Program which encompasses security installations and system upgrades nationwide. GCS was the first preferred contractor to accomplish a 'zero finding status' for deficiencies during the FAA's Site Acceptance Testing (SAT) for this program. GCS has performed work at facilities in Kona, Honolulu, Anchorage, Oakland, Sacramento, Palm Springs, Denver, Seattle, and Oklahoma City.

REDSTONE ARSENAL, AL & FORT HOOD, TX

GCS has the Integrated Commercial Intrusion Detection System maintenance contracts at both Redstone Arsenal and Fort Hood. Our OEM certified technicians service, maintain, and install their ICIDS systems base wide, performing upgrades and installing of new IDS, CCTV, and Access Control systems across these facilities. GCS provides on-call service 24/7/365 to both these installations.

PINE BLUFF ARSENAL, AL

Pine Bluff Arsenal is one of nine Army installations in the U.S. that stores chemical weapons. Its Homeland Security mission includes first-responder equipment training, and surveillance of prepositioned equipment. GCS designed and built multiple Access Control points at this critical facility. We also installed a video surveillance system and installed an extensive fiber optic network. Additional work included installing over 100 surveillance cameras, light poles, and over 40,000 sq. feet of parking space.

FEMA NATIONAL MAINTENANCE AND INSTALLATION

As a preferred contractor for the Federal Emergency Management Agency (FEMA) National Maintenance and Installation contract, GCS is responsible for rapid response service calls throughout the Western United States performing CCTV and Access Control work in Regions IIIV, IX and X. Our rapid response team can be deployed within 24 hours of notification to respond to emergency service calls throughout our areas of responsibility to include the entire United States.
